OFFICIAL PAPER OF GELACOUSTY.

Saturday, March 16, 1895.

COUNTY PRINTING. AND THE CAUSE OF LARGE WELLINGTENT TAX LISTS.

We find the following in the Tueson Star of the 8th lust, in reference to county printing :

"This afternoon was printer's day in the Council. A bill came up in the committee of the whole relative to county printing, and designating what should be considered an inch in a newspaper, and making the daily and weekly equally eligible for county printing. Martin, of Yavapai, who is the only knight of the plume in the House, sprang to the defense of the printing fraternity, and told the assemblymen that when they insisted upon placing seven words to the line in long primer, they were asking something that might be impossible, that if such a law was passed it would be a dead letter, on ac-

ing with it. Wright, of Cochise, expounded to the assembly how printing affairs were ran in Cochise county. Skinner, of Graham, said the people of Graham were paying two thousand a year for the printing of their delinquent tax list, and called for economy in this line. Hunt got in a rap at what he called mushroom dailies that sprang up in a day, and existed only as long as the county printing was in sight."

count of the impossibility of comply-

There is much to be said with regard to printing bills. The laborer is worthy of his hire. By the terms of the presout printing bill a great deal less than the usual commercial rates are the legal charges.

In the article quoted above from the Star, Mr. Skinner is said to have made the statement that "the people of Graham were paying two thousand a year for the printing of their delinquent tax list." We understand that Mr. Skinfier is a minister of the gospel, as well as a member of the Arizona legislature. It is to be presumed that a man hold ing two such high positions of trust would not willfully misrepresent a fact, and if a statesman of Skinner's ability and entirely free from guile, makes an erroneous statesment it is due to ignorance and nothing else. The Bulletin will receive for the year 1894 for publishing the delinquent tax list of Graham county, according to law, the sum of \$606.77; more than two thirds less than \$2,000, as Skinner misrepresented to his colleagues.

It is true that the published delinconservative legislative appropriations it county governments, nor with the people. Too much liberality on the part of the representatives at Phoenix in scattering with a lavish hand the money of the tax-payers is the cause. Appropriating large sums to every apparently fessible and plausible scheme accounts for the large delinquent tax list, so justly complained of. A stream can not rise higher than its source.

Again we cry halt to the legislature, and suggest to Mr. Skinner that during the present Lenten season he go into retreat and commune with himself.

We are in receipt of the Railroad Edition of the Arizona Gazette, issued to celebrate the completion to Phoenix of the Santa Fe, Prescott and Phonix

AFTER TIMBER DEPREDATIONS.

Through the Tueson Star it is announced that U. S. Attorney Ellinwood, in accordance with instructions from Attorney General Olney, has instituted legal proceedings in the distrief court against David D. Ross and the Copper Queen Consolidated mining company. Suit on the same grounds was commenced against these parties several years ago, but for some reason the case never came to trial. The action brought is to recover in the sum of \$183,070.50, it being alleged for cause of action that the defendants "cut and caused to be cut and removed from surveyed and unsurveyed nonmineral lands of the United States 5,905,400 feet of timber." The land on which the timber is alleged to have been out her in a canyon of the Chiricahua meuntaina .- Gazette.
